

POWERING

THE NORTH EAST'S FUTURE

northeastpowersystems.com

ABOUT US

At Northeast Power Systems (NEPS), with over 20 years of expertise, we specialize in delivering reliable, high-quality power infrastructure solutions tailored to the unique demands of the North Eastern region of India.

Founded by R.P. Agarwal, and with the legacy carried forward by Neeraj Agarwal, NEPS brings together decades of experience in engineering, procurement, and project execution.

Our mission is to ensure that every installation whether transmission, distribution, lighting, or cabling is executed with precision, safety, and cost-effectiveness. We believe in building long-term partnerships that drive infrastructure growth, industrial expansion, and community electrification across both urban and rural landscapes.

OUR SERVICES

We provide a full suite of services in power infrastructure

TURNKEY POWER PROJECTS

From design and engineering through procurement, construction and commissioning.

TRANSMISSION & DISTRIBUTION

Network build-out from low tension to high voltage, ensuring efficient power flow.

SUBSTATION DEVELOPMENT

Design and construction of 33/11 kV and beyond, with safety and reliability at the core.

OUR SERVICES

We provide a full suite of services in power infrastructure

LIGHTING & ILLUMINATION

Street lighting, high-mast systems, industrial lighting tailored for both performance and aesthetics.

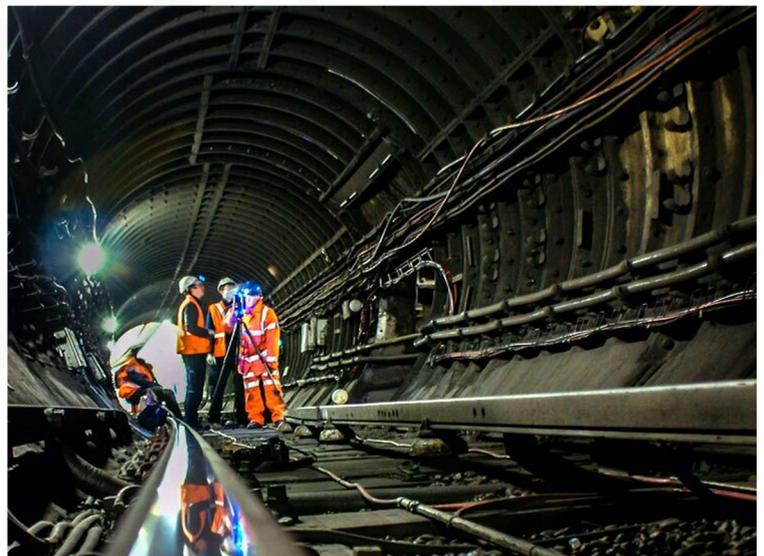

MAINTENANCE & SURVEYS

Preventive maintenance, line inspections, asset condition assessment for long-term operational efficiency.

UNDERGROUND CABLING

Modern underground power networks that minimise visual disruption and maximise reliability.

PRODUCT PORTFOLIO

Our product offerings cover critical components of power networks, all selected to meet rigorous industry standards.

1 - TRANSMISSION & DISTRIBUTION MATERIALS

Conductors
(ACSR, AAC)

Insulators
(porcelain, polymer)

Tower hardware, fittings,
stay-sets, clamps

2 - LIGHTING & CONTROL EQUIPMENT

Street lighting poles
(tubular / octagonal)

High-mast lighting
systems

LED & solar
lighting solutions

Panels, switchgear,
termination kits,
control devices

3 - TRADING & ALLIED SUPPLIES

Substation accessories,
earthing & lightning
protection systems

Safety tools, installation
hardware, fasteners
and consumables
